The Tire with the Wider and Thicker Tread

The e's Another Side To It-

Nearly every tire user you meet understands that a wider, thicker tread, having more rubber in it, wears longer and protects the fabric botter.

There's another, strictly ccientific reason for this wider, thicker tread.

It gives the Gates Superfread Tire a broader road base on which to bear its load, This means less bending of the sidewall-longer life for the fabric. Naturally, more

To Prospective Purchasers of the

ESSEX

We respectfully advise those who anticipate the purchase of an ESSEX COACH this season that recent development of an overwhelming demand for this popular \$1,575.00 type, both here and throughout the United States, makes it certain that at a slightly later date deliveries will be difficult to obtain.

To insure yourself against disappointment or annoying delay, let us have your order
